**GENERAL INFORMATION:**

\*\*\*\*\*

If your last dive has been some months ago or only a few dives are logged, a check dive for your own safety is highly recommended. If the last dive is longer than 2 years ago a Refresher course should be done.

Most dives from the boat or to Canyon and Blue Hole require logged deep dive experience. We decide after an obligatory local dive though, if Canyon, Blue Hole or boat is possible.  
It is possible to do 2 or 3 dives on these full day trips.

Dives of a package can be spread throughout the stay. .

The Egyptian Underwater Federation sets the limit to 30 meters maximum depth for recreational diving.

The gear can be locked in the equipment area at the dive centre. This service is free of charge.

Existing groups usually remain with the same dive guide.

The dive guide is in charge for the daily schedule, taking in consideration our customers requests and weather conditions.

Snorkelers can join the diving trips as well.

Jeep trips cost EUR 5.00 per person - the equipment is included.

**Daily diving excursions:**
