Currents and winds may cause moderate movement of the yacht at times. We recommend a complete physical before your trip. There is no smoking allowed inside the boat or on the dive deck. Smoking is only permitted on the sun deck. 4 The nearest recompression chamber is in Honolulu, on the island of Oahu. This facility is located approximately six hours from the Kailua-Kona dock. The Kona Aggressor II and their staff are unable to accept any medication brought onboard for safe keeping including those that require refrigeration. Should a guest have a medication requiring temperature control, they will need to travel with a travel cooling case or small storage cooler with several blue ice packets. This should be kept in your stateroom.

If you have any special dietary requirements, please be sure these are noted when completing the GIS. You will awaken to fresh fruits, hot entrees, cereals and juices. Lunches are buffet-style, featuring hot soups, salads and sandwiches and/or entrees. Dinners are served each evening and include salads, vegetables, seafood, beef or chicken with a fresh homemade dessert. Once onboard, please speak to the chef about any special needs. Certain special dietary and beverage requests may not be available due to the remote nature of this location.

Due to local regulations; the bar will be closed when diving and when the boat is tied to the Kailua pier. Drinking and diving do not mix. Once you consume alcohol, you become a snorkeler until the next day.

CLOTHING Please plan to travel light, as on all live-aboard dive yachts, space is limited. We recommend that you pack your gear in soft luggage such as a duffel bag for easy stowage and to add to your comfort in your cabin. the ultimate in service. While onboard, you may pick a buddy of your choice or dive with one of the crewmembers. The yacht offers up to five dives per day (2 on the last day) including night dives. The stern and platform areas are very spacious. A large 20-foot x 6-foot swim step spans both hulls and it comfortably accommodates all divers. The boarding ladders were designed for convenience to allow divers easy exits and entries. Enjoy the fresh water showers on the back deck after your dives. All diving onboard the Kona Aggressor II should be within the limits and standards of the training agency that certified you. All dives should be planned no decompression dives. Diving Supervision You've chosen a LiveAboard vacation for the diving freedom that it offers. While in the water, you and your buddy are in charge. Every dive starts with a dive briefing from our staff. However, as a certified diver, you and your buddy are responsible for planning and conducting your own dives within the limitations set forth by the briefing. Our staff will be on the dive deck providing surface support for divers. We will also have staff in the water offering support, u/w photography and videography, and critter spotting services as well. On some dive sites a staff member will offer to lead a group and assist them in locating specific points of interest. However, we do not offer direct supervision of dives. If you start out with a group, as long as you and your buddy remain in contact with each other and are ok – you may follow your own dive plan. Divers who desire more personal attention and structured/supervised dives should consider taking one of the yachts numerous specialty courses. An underlying skill featured in all of specialty training is planning, executing, and debriefing after your dive in order to build a more confident diver.

DIVE GEAR SUGGESTIONS We suggest you pack the following: mask, fins, snorkel, regulator with pressure gauge, depth gauge, buoyancy compensator, dive computer, dive light, mirror, safety sausage, Dive Alert and/or other safety devices.
