

WHERE ARE THE CAYMAN ISLANDS?

The Cayman Islands is a British Crown Colony made up of three islands. Grand Cayman is located 480 miles south of Miami. Little Cayman and Cayman Brac are 80 miles to the northeast of Grand Cayman. They are an attractive mix of Caribbean charm and American efficiency. The islands are emerging peaks of the submarine Cayman Ridge, which extends from the Cuban Sierra Maestra Range to the Misteriosa Banks off Honduras. The islands were formed by living corals gradually capping the mountain peaks. The Cayman Islands were discovered in 1503 by Christopher Columbus.

Aggressor Fleet yachts and their staff are unable to accept any medication brought onboard for safe keeping including those that require refrigeration. Should a guest have a medication requiring temperature control, they will need to travel with a travel cooling case or small storage cooler with several blue ice packets. DIVING CONDITIONS You will be diving in water that averages 82°F in the summer months and approximately 78°F in the winter months. Most guests make as many as 5 dives each day, so some sort of protection is needed. A 1-3mm wetsuit or shorty is recommended year round, however some people prefer a 5mm in January/February. All diving is from the mother ship. **DIVING** The crew of the Cayman Aggressor IV, with their unique combination of talents, offers the ultimate service. While onboard, you may pick a buddy of your choice, or dive with one of the crewmembers. The yacht offers up to five dives

per day (2 on the last day) including night dives. There is ample storage space for your diving equipment in your personal locker. The Cayman Aggressor IV provides 80 cubic ft. tanks, weight belts and weights. The stern and platform area is very spacious. The boarding ladders were designed for convenience to allow divers easy entries and exits. Enjoy fresh water showers on the back deck after your dives and dry off with a warm towel. All diving onboard the Cayman Aggressor IV should be within the limits and standards of the training agency that certified you. All dives should be planned no decompression dives. Diving Supervision You've chosen a LiveAboard vacation for the diving freedom that it offers. While in the water, you and your buddy are in charge. Every dive starts with a dive briefing from our staff. However, as a certified diver, you and your buddy are responsible for planning and conducting your own dives within the limitations set forth by the briefing. Our staff will be on the dive deck providing surface support for divers. We will also have staff in the water offering support, u/w photography and videography, and critter spotting services as well. On some dive sites a staff member will offer to lead a group and assist them in locating specific points of interest. However, the yacht does not offer direct supervision of dives. If you start out with a group, as long as you and your buddy remain in contact with each other and are ok – you may follow your own dive plan. Divers who desire more personal attention and structured/supervised dives should consider taking one of the yachts numerous specialty courses. An underlying skill featured in all of specialty training is planning, executing, and debriefing after your dive in order to build a more confident diver.

DIVE GEAR SUGGESTIONS We suggest you pack the following: mask, fins, snorkel, regulator with pressure gauge, depth gauge, buoyancy compensator, dive computer, dive light, mirror, safety sausage, Dive Alert and/or other safety devices.
