It is important to notify our office of last minute changes concerning your airline arrival and departure times or any changes in your address and telephone numbers. The enclosed information will assist you.

The Reservations Office and Red Sea Aggressor II are in constant communication. In the event of an emergency, family and friends may contact the Aggressor Fleet Reservations Office. After hours they may call the Aggressor Fleet emergency cell number.

We recommend guests arrive in Egypt on Friday, one day prior to the start day of the charter. Once guests are onboard and the yacht is given clearance to leave the port by the local authorities, no one can board the yacht after this time or deliver any lost luggage. We recommend you prepare for this if you are scheduled to fly in the day of the charter by packing a mask, fins, swimsuit, change of clothes, medication and toiletries in your carry on bag. Having these few items with you can make an unexpected luggage more bearable. Don't forget to use your Aggressor luggage tags. They will help the crew identify your bags.

HEALTH

The Red Sea Aggressor II has a first aid kit onboard, including oxygen and an AED. You may want to bring motion sickness medication if you feel you will need it. We suggest you

bring over-the-counter motion sickness medication or consult your doctor about prescription brands, such as the trans-dermal patch or Scopace tablets. Currents and winds may cause moderate movement of the yacht at times. We recommend a complete physical before your trip.

The Red Sea Aggressor II and their staff are unable to accept any medication brought onboard for safekeeping including those that require refrigeration. Should a guest have a medication requiring temperature control, they will need to travel with a travel cooling case or small storage cooler with several blue ice packets. This equipment should always be stowed after use to avoid the risk of damage.

VOLTAGE ABOARD THE YACHT

The voltage aboard the yacht is 220v and the plug sockets around the boat will accept American plugs. You should bring a voltage adaptor on a power strip if you can. Most electrical devices are either 110 or 240 volts (look on your cable on the charger that plugs into the wall to verify).

INTERNET/EMAIL/PHONE

Email is not available, however, there is a satellite phone available for incoming and outgoing calls for a fee.

FOOD

The menu aboard is varied and plentiful, with a variety of Egyptian feasts and local cuisine. If you have any special dietary requirements, please add this to your reservation through the GIS and speak to the yacht chef once onboard so he/she can adequately prepare to meet your needs. You will wake up to fresh fruits, hot entrees, cereals and juices. Lunches are buffet-style, featuring hot soups, homemade breads, salads and sandwiches and/or entrees. Dinners are chef prepared and served each evening and include salads, vegetables, seafood, beef or chicken with a fresh homemade dessert. Certain special dietary and beverage requests may not be available due to the remote nature of this location so we highly recommend you bring these items with you. (pork and turkey are not available).

BEVERAGES

The Aggressor's selection includes fruit juices, soft drinks, iced water, iced tea, coffee, and a limited selection of local beer and wine, which are complimentary. We suggest you purchase your favourite liquor (s) from the duty free shop at the airport prior to departing to Egypt. Drinking and diving do not mix. Once you consume alcohol, you become a snorkeler until the next day.

CLOTHING

Please plan to travel light, as on all live-aboard dive yachts, space is limited. We recommend that you pack your gear in soft luggage such as a duffel bag for easy stowage and to add to your comfort in your cabin. Clothing should be lightweight, comfortable sportswear and swimsuits are a must. A light sweater or jacket is ideal for evenings. Dress is always casual and informal. Additional items you may want to bring are sunscreen, sunglasses, a hat and walking shoes for your time on shore.

ENTERTAINMENT

There is a variety of nightly entertainment, including diving, marine life identification presentations, movies, games and more. We have a selection of 400 classic and new release movies that can be viewed in the boats salon or taken to your cabin to watch. However, if you have a favorite movie, digital slide show or a video to share, we encourage you to bring it along. The crew especially loves new releases of DVD's, movies, CD's, recent magazines and books. A small library of books for exchange is maintained onboard as well as marine life identification books for reference.

Whether it's your anniversary, birthday, honeymoon, wedding or you are celebrating a 100th dive; please let us know so the crew can celebrate your occasion. Kindly advise the US office prior to traveling so the crew is notified in advance.

DIVING CONDITIONS

You'll be diving in water that averages 74°-82° degrees or 23°-28°C. Most guests make as many as 5 dives each day, so some sort of protection is needed. A 3 – 5 mm wetsuit in the summer and 7mm in winter should be comfortable and adequate. We suggest divers bring safety items such as a Dive Alert, Safety Sausage, Nautilus Lifeline (Nautilus Lifelines available onboard for rent) and any other safety items you feel necessary. Dive computers are mandatory so please bring yours or complete the dive computer rental form in the GIS.

DIVING

The crew of the Red Sea Aggressor II, with their unique combination of talents, offers the ultimate in service. While on board you may pick a buddy of your choice or dive with one of the yacht's crewmembers. There is ample storage space for your diving equipment. The Red Sea Aggressor II provides 12 litre aluminium tanks, weight belts, and weights and has both K-valves (American type), and DIN (International) valves.

Northern Red Sea, Ras Mohamed and Straits of Tiran. The Northern Red Sea and Straits of Tiran provide some of the most historic wrecks like Thistlegorm, Rosalie Moller, Abu Nuhas, Ras Mohamed National Park and pristine coral reefs as well as abundant marine life. The Straits of Tiran are the narrow sea passages between the Sinai and Arabian peninsulas which separate the Gulf of Aqaba from the Red Sea. These reefs, named after British cartographers (Jackson, Woodhouse, Thomas, Gordon), are world famous for their extraordinary diversity of corals and strong south-westerly currents make them home to many large pelagic fish.

In between dives, you may snorkel, explore secluded beaches, or just relax with a cold drink and mid-morning/mid afternoon snack. Guests may dive up to 4-5 dives per day including night diving when possible.

We suggest you pack the following: mask, fins, snorkel, and regulator with visible pressure gauge, depth gauge, dive computer, and buoyancy compensator. Strongly recommended: Spare mask, a dive watch, dive light, safety sausage with 20 feet of line, whistle, Dive Alert, mirror and/or other safety devices. Each piece of gear should be marked with waterproof paint or tape. Please see our "Captain's Log" on our website for current diving conditions.

The Egyptian Government forbids tourists from carrying drone aircraft into the country. If you do enter Egypt with a drone aircraft, the Egyptian Government warns they will confiscate the drone.

Diving amenities include the offer of unlimited Nitrox which is \$100 7-nights/\$150 10 nights.

DIVING SUPERVISION

You've chosen a LiveAboard vacation for the diving freedom that it offers. While in the water, you and your buddy are in charge. Every dive starts with a dive briefing from the yacht staff. However, as a certified diver, you and your buddy are responsible for planning and conducting your own dives within the limitations set forth by the briefing. The staff will be on the dive deck providing surface support for divers and will also have staff in the water offering support, u/w photography and videography, and critter spotting services as well. On some dive sites a staff member will offer to lead a group and assist them in locating specific points of interest. However, the yacht does not offer direct supervision of dives. If you start out with a group, as long as you and your buddy remain in contact with each other and are ok –you may follow your own dive plan. Divers who desire more personal attention and structured/supervised dives should consider taking one of the yachts numerous specialty courses. An underlying skill featured in all of specialty training is planning, executing, and debriefing after your dive in order to build a more confident diver.

CONSERVATION LAWS

Aggressor Fleet does not permit spear guns, Hawaiian slings or collecting on any of the yachts.

RENTAL DIVE EQUIPMENT

A full line of Aqua Lung Rental gear is available aboard including regulators, BCDs, Dive Computers, and Night Lights. (wetsuits not available) If any of your dive equipment fails while onboard, the crew will loan you equipment free of charge, compliments of Aqua Lung.

CERTIFICATION & SPECIALTY COURSES

Several diving specialty courses are offered onboard including Nitrox, Advanced Open Water, UW Photography, Master Diver and more. The list of available courses and prices are available on our website.

PHOTO/VIDEO EQUIPMENT

The Red Sea Aggressor II offers a complete digital photo facility including a PC for downloading photos. The Photo pro is available for free coaching with equipment rental. Photo equipment is available to rent separately or as a complete set up. The Red Sea Aggressor II has a charging station and a large camera table available for your camera and video equipment. Guests should bring their own battery chargers.

UNDERWATER VIDEO/DVD

The Video Professional can capture your diving adventure onboard the Red Sea Aggressor II to share with family and friends. The video of the week/DVD (includes all guests and crew) is \$65 US.

SHIPS BOUTIQUE & CREDIT CARDS

There is a mini-boutique onboard with assorted t-shirts, and miscellaneous items. Due to limited availability, we recommend bringing extra batteries and CD's for photos. The Red Sea Aggressor II accepts cash, AMEX, Visa and MasterCard. (no personal checks) We will charge you for all your purchases including the park and port fees on the last day of your charter when you arrive back to Hurghada.

GRATUITIES

Crew gratuities are not included in the charter. We believe gratuities should be voluntary and based upon the quality of service the crew has provided. When settling your account, the Captain will have an envelope for gratuities that will be divided equally among the crew. Payment can be made by cash, AMEX, Visa or Master Card credit card. The yacht does not

accept traveler's checks. (Egyptian banks don't accept them) When traveling abroad, it is a common occurrence for a credit card charge to be declined due to a fraud alert. To help avoid this, it is recommended you contact your credit card company prior to traveling to notify them of the countries you are visiting.

FRIDAY

The Red Sea Aggressor II returns to Hurghada Friday afternoon between 2 – 4 pm. A sunset cocktail party will be held then guests may go ashore for dinner at one of the many restaurants at Hurghada. Dinner Friday night is the only meal not provided with the cruise. After the Red Sea Aggressor II returns to port guests may also visit Hurghada for shopping and nightlife.
