

Apo Reef – Coron

Embarkation and Disembarkation Point

Anilao, Batangas, Philippines

How to get there

The Philippines has numerous international entry points. We suggest that you go through the Manila International Airport.

From there you can arrange your own transportation to Anilao, Batangas or you can ask us to help you. If you ask us to help bear in mind that this is a paid service and is not included in our price. Since the airport has three (3) international terminals it is important that you inform your detailed itinerary so that there are no issues in picking you up.

Important Passport Information

A valid passport at least six (6) months before expiry is required to enter the Philippines. Depending on your nationality a visa might be required for you to gain entry. You need to check with your respective countries if this is the case. Passport information needs to be collected along with the complete Guest Information Sheet (GIS) at least a month before embarkation.

Embarkation

The embarkation normally starts around 2:30pm.

For the ones arriving on early flights, we don't bring them to the boat. Instead, we bring them to a cafe until 9:30 (for the ones who arrive before this time) and to a mall (after 9:30) and pick them up at 14:00 in the same place we dropped them at the mall.

If you decide to go a day or more ahead please inform us your hotel details thru info@dive-resolute.com so that we can arrange for your transportation going to the boat. We will only do this if your pickup point is within 10km from the boat and only on the day of embarkation. The boat normally departs around 6pm.

Safety Concerns

Safety is our top most priority. Our boat will not proceed if the captain perceives that there is a major threat to the guests, crew and boat. This may be because of bad weather or other factors.

Our dive guides and crew are trained emergency personnel. They know how to handle simple accidents and health concerns. For more serious conditions, there are modern hospitals in Batangas City and Metro Manila. Recompression chamber is available there.

We have basic first aid kit onboard including medical oxygen and an AED. We do not require it but getting a clearance from your doctor is highly recommended since the dives can be stressful at times.

Special Occassions

Special occasions are always a cause for celebrations. Please inform us in advance of any birthdays, anniversaries, honeymoon or even milestone dives (100, 200, etc). Kindly indicate it in the CIS,

Gratuities

Crew gratuities or service fees are not included in the price. We believe that this should be voluntary based on your satisfaction with the service of the crew. On the last day, the crew will leave an envelop in your room. There will be a box in the main deck where you can put the envelop – anonymous or declared is your decision. It will be collected afterwards and equally divided between the crew and the dive team. We suggest 10% of the tour price.
